The CSEC program provides checklists and audit capabilities for programs mandated for auditing within OPNAVINST 4790.2H. All auditing described in this instruction must be performed at the prescribed intervals. Other areas are included within CSEC which, while not specifically mandated for auditing, are intended to enhance the attainment of total quality maintenance and are provided as a tool for use in the achievement of that goal.

Questions or comments can be submitted via the feedback form found on the "Contact Information" page (see link in the left column).

THE NAVAL AVIATION MAINTENANCE PROGRAM (NAMP)

OPNAVINST 4790.2H 1 June 2001

The OPNAVINST 4790.2H NAMP files have been enhanced for optimal use on the internet. The Web NAMP is provided to increase accessibility, to decrease publication/distribution costs, and for convenience. The authoritative source for policy and direction contained in the OPNAVINST 4790.2H is the official web site, CD-ROM, or paper version of the NAMP. The CD-ROM is distributed by OPNAV N781. Paper copies may be requisitioned through normal supply channels.

Comments pertaining to the Web NAMP are welcome. Comments should specifically address the usability of the web site, such as linking of figures, paragraphs, acronyms, definitions, etc.

NAMP Change Recommendations, Corrections, and Requests for Deviation must be submitted per OPNAVINST 4790.2H [Chapter 1, paragraph 1.6.](#) of each volume.

Web troubleshooting tips are available on
